**2) DISTRICT’S RESPONSIBILITIES**

- A) District agrees to accept full ownership of the Non-Standard Elements and responsibility for the perpetual Maintenance of the Non-Standard Elements, at no cost to the County, in accordance with the standards set forth in this Agreement. District will, at no cost to the County, provide Maintenance of the Road ROW to the extent that the need for such Maintenance is a direct result of damage to the Non-Standard Elements or is otherwise directly caused by the Non-Standard Elements. The District shall have no responsibility for maintenance and repair of the Road ROW, except as stated in this Agreement.

- B) Maintenance required by the District shall include, but not be limited to, maintaining the intended function and the aesthetic appearance of the Non-Standard Elements. It shall also include removing and relocating the Non-Standard Elements if the County determines that it will be desirable due to changes in applicable regulations, including the Texas Accessibility Standards, or planned future improvements to the intersections, such as signalization or construction of additional lanes. In addition to satisfying the standards set forth in this Agreement in performance of its maintenance responsibilities, the District's performance shall conform to the standards prevailing in the County at the time of such maintenance with respect to scope, quality, due diligence, and care, in regard to usual and customary maintenance by the County on its typical medians and appurtenances in the median.
- C) If the Harris County Engineer ("County Engineer") determines that any Maintenance work is not being performed in accordance with the standards for same, as specified in this Section, he/she may request that the work be discontinued. - D) District agrees to make necessary repairs to the Non-Standard Elements or medians, or the Road ROW to the extent such repairs to the Road ROW are necessary due to damage to the Non-Standard Elements or is otherwise caused by the Non-Standard Elements or Maintenance of the Non-Standard Elements, as soon as reasonably practicable. Should the deficiencies requiring such repairs endanger the public, the District shall implement interim safety measures until it can provide such Maintenance. However, the County may provide such measures on behalf of the District without prior notice to the District if the County Engineer, in his sole discretion, determines that it is necessary to implement interim safety measures until such time as the District can provide its own safety measures. The District shall be responsible for the cost incurred by the County in providing any interim safety measures on its behalf. In any event, the District agrees to provide necessary Maintenance within one hundred and twenty (120) days from the date the District becomes aware or reasonably should have become aware of the need for such Maintenance.
- E) Prevention and Repair of Damage. In performing the Maintenance, the District shall follow necessary safety measures and shall take measures to prevent damage to persons and property resulting from the conditions that the District is responsible for repairing and maintaining and resulting from repairs thereto.
- F) Notice of Repair or Maintenance. The District shall notify the County in writing before commencement of repair or maintenance work under this Section, other than routine maintenance. If the repair or maintenance is of an emergency nature, such notification may be provided by telephone and confirmed in writing as soon as reasonably practicable thereafter. The District shall provide written documentation to the County of the work done after completion of any non-routine maintenance or repairs within thirty (30) days of completion of such repairs.

- b. Notwithstanding the foregoing provisions in Section G(a), the County may perform such Maintenance if (a) the Non-Standard Elements are in need of Maintenance and (b) the District has failed to perform such Maintenance in a timely manner. If the County performs any Maintenance or removal of any of the Non-Standard Elements, the County shall not be required to restore the Non-Standard Elements to their previous condition or specifications. The District shall then have the right, at any time in the future, to enhance, replace, or restore any Non-Standard Elements repaired, replaced, modified, or removed by the County, and in this event, the District will return all salvageable materials utilized by the County.

### **3) COUNTY’S RESPONSIBILITIES**

If drawings and specifications that include the Non-Standard Elements are submitted to the County in accordance with the Regulations of Harris County, Texas for the Approval and Acceptance of Infrastructure (“Regulations”), the County will review such drawings and specifications. If such drawings and specifications are approved by the County, the Non-Standard Elements must be constructed in accordance with the approved and permitted drawings and specifications.

The County Engineer or the County Representative shall provide notice to the District at least sixty (60) days prior to any such alteration or removal. The County agrees that the District may replace, repair, or reconstruct the Non-Standard Elements altered or removed by the County pursuant to this Section 3(E), at the District’s sole cost and expense and subject to approval of plans and specifications by the County. Otherwise, upon

complete removal of the Non-Standard Elements, the District's maintenance responsibility shall end for the Non-Standard Elements.
