Note:

- (1) Projected Short Year is based on actual results as of August 31, 2022. Values presented include Correctional Health revenue and expense.
- (2) Updated FY2023 Budget represents the No New Revenue (NNR) tax rate version. Values do not include the Correctional Health budget as it is pending final approval by the Commissioners Court.

Capital Budget Summary

FISCAL 2023 Updated Budget (in Millions)

| | FY 2023 Capital Budget | |
|------------------------|------------------------|-------------|
| Capital Category | | |
| Facility Projects | \$ | 92,462,409 |
| Information Technology | | 18,833,214 |
| Medical Capital | | 41,245,518 |
| Other | | 7,527,510 |
| Emergency Capital | | 2,000,000 |
| Routine Capital Budget | | 162,068,651 |

In an effort to minimize or alleviate the resulting \$44.8 million loss to Harris Health System resulting from the No New Revenue tax rate for FY 2023, the following mitigation strategies are presented for discussion and consideration:

Labor Management - \$11.6 million reduction

Cost mitigation strategies have been deployed across the organization to manage and minimize contract labor expense. Contract labor is being monitored and strategies put in place to ensure appropriate review and approval of any contract labor in an effort to achieve a 5 - 10 percent reduction in utilization. Additional efforts are underway to evaluate staffing and bring it in alignment with benchmark targets where possible.

Strategic Initiatives - \$24.7 million reduction

Strategic Initiatives planned for FY 2023 are being evaluated for elimination, reduction or delay in order to alleviate incremental operating expense. This includes initiatives, such as, the following:

- Expansion of Same Day Clinic/Urgent Care hours and EC Telemedicine
- Expansion of specialty care services in the community
- Expansion of GI capacity
- Expansion of Population Health initiatives focused on Chronic Disease Management and enhanced community partnerships

Purchased Clinical Services/Supplies - \$8.5 million reduction

The System is currently evaluating purchased clinical services for reduction or elimination in order to close any gap remaining after implementation of the strategies identified above.
