Biketothesea / Autism & disABILITIES

The Texas Ride for AUTISM & disABILITIES

October 30, 2021 | Houston to Galveston

Bike to the Beach invites you to join the most fun and most impactful challenge of your life! This beautiful ride to the Galveston seashore is also the best way to make a positive difference right in your own backyard. We only have 100 spots, don't miss this opportunity!

A Socially Distanced Experience:

Our Texas autism partners need us all to come together this year. We are striving to beat our fundraising goal of \$50,000.00. Help us make the push past 50,000.00 to make this year's Texas Bike to the Beach the best one yet! We are here to empower your community, challenge and help you achieve your goals, and support your fundraising efforts for local partners.

In the years between the first Bike to the Beach and when Bike to the Beach became a 501(c)3 non-profit organization, the founding members joined the millions of Americans who are on the spectrum and their support networks. Each were inspired to make a difference for the AUTISM & disABILITY Community.

Bike to the Beach is not just the host of charity bike events, but a community made up of individuals, cyclists, local organizations, advocates, philanthropists, corporate companies and national partners. It is our goal to support individuals and families with autism and disabilities in the best way that we can. As a result, we focus on supporting Local Support Services, Research, Advocacy, and Awareness. We accomplish this through our balance of partnerships at the local and national level.
