Request Summary (Agenda Caption):

Request for approval of Payment and Performance bonds from Environmental Southwest for blockage removal and floatable collection structure maintenance for the Flood Control District, in connection with a renewal approved by Commissioners Court on April 25, 2023 (190123), MWDBE Contracted Goal: 15%.

Background and Discussion: Channel blockages pose an immediate risk to the surrounding community and can create erosion issues downstream of the blockage. Working within the channel flowline requires highly skilled equipment operators to remove obstructions without causing damage to the channel. The District has contracted this service to ensure that blockages are removed as soon as they are identified.

Expected Impact: Renewing this contract will allow the District to provide the services needed to support maintenance of channels and basins throughout Harris County.

Alternative Options: Awarding a contract that provides fewer services or a reduced level of services. Performing some of the services with in-house forces.

Alignment with Goal(s):

- Justice and Safety
- Economic Opportunity
- Housing
- Public Health
- Transportation
- Flooding
- Environment
- Governance and Customer Service
