Request Summary (Agenda Caption):

Request by the Office of the Purchasing Agent that the County Judge execute an amendment to an agreement with Tetra Tech, Inc. in the additional amount of \$3,037,301 to expand the scope of service for disaster recovery program management for Harris County for the extended period of April 28, 2023 - April 27, 2024 (190091), MWDBE Contracted Goal: N/A - project was awarded prior to launch of County's M/WBE Program.

Background and Discussion:

This amendment is to extend the agreement with Tetra Tech for COVID-19 disaster recovery services related to the Federal Emergency Management Agency (FEMA) Public Assistance Program. As of March 31, 2023 Tetra Tech has submitted 110 projects for approximately \$348M to FEMA, and \$138M has been obligated. Although most projects have been submitted, coordination with FEMA will continue as the projects move through their

reviews, and as they request additional information and documentation. In addition, once a project gets obligated, it is audited by the Texas Department of Emergency Management (TDEM), which Tetra Tech coordinates with on Harris County's behalf.

Expected Impact:

Tetra Tech's recovery services should yield an additional \$210M in obligations for Harris County assuming all submitted projects are considered eligible by FEMA and TDEM. FEMA allows for reimbursement of management costs between 4%-5% of total obligations. Therefore, a majority of the cost of Tetra Tech's services to date for COVID-19 recovery services should be reimbursed.

Alternative Options:

If Commissioners Court does not approve this amendment, Harris County Risk Management would assume recovery responsibilities. With the volume of projects and documentation requirements and limited Risk Management staff, this would slow down the recovery process.

Alignment with Goal(s):

- Justice and Safety
- Economic Opportunity
- Housing
- Public Health
- Transportation
- Flooding
- Environment
- Governance and Customer Service
