File #: 23-0184, **Version:** 1

Department: Flood Control District

Department Head/Elected Official: Tina Petersen, Ph.D., P.E., Executive Director

Regular or Supplemental RCA: Regular RCA

Type of Request: Contract - Award

Project ID (if applicable): Q114-00-00-E001

Vendor/Entity Legal Name (if applicable): Binkley & Barfield, Inc.

MWDBE Contracted Goal (if applicable): 22%

MWDBE Current Participation (if applicable): N/A

Justification for 0% MWDBE Participation Goal: N/A - Goal is not 0% and is listed above

Request Summary (Agenda Caption):

Request for approval of an agreement with Binkley & Barfield, Inc., in the amount of \$1,086,297, to provide preliminary engineering and design services in support of Cedar Bayou regional detention and channel improvements project HCFCU Unit Q114-00-00. (Cedar Bayou Watershed, Bond ID F-42, Project ID Q144-00-00-E001, Agreement No. 2022-90, Precinct 3, MWDBE Contracted Goal: 22%).

Background and Discussion:

HCFCU Unit Q114-00-00 has a long history of flooding and has been included in previous Cedar Bayou Flood Risk Reduction Study. The preliminary engineering report (PER) is needed to determine the best use of flood mitigation along this channel, to identify the require ROW and support other large-scale flood reduction efforts in the Cedar Bayou Watershed. The preliminary engineering effort is complex and requires review of other past and ongoing efforts along Q114-00-00 and the surround area, detailed H&H modeling, right-of-way (ROW) identification and conceptual design. This court action is to proceed with preparing a Preliminary Engineering Report (PER) and conceptual design for the Q114-00-00 regional detention and channel improvements project.

Expected Impact:

This project is part of the Cedar Bayou Bond Implementation Program that could reduce flood risks in the area. The outcome of the preliminary engineering report is to recommend a flood risk mitigation project along Q114-00-00, potential acquisition of additional ROW, define preliminary permitting requirements and identify stakeholder coordination efforts.

Alternative Options:

The alternative should this agreement request not be approved is that the District will not be able to proceed with PER stage of the project lifecycle to determine recommended improvements to reduce flood risks in the area.

Alignment with Goal(s):

- Justice and Safety
- Economic Opportunity
- Housing
- Public Health
- Transportation
- Flooding
- Environment
- Governance and Customer Service

Prior Court Action (if any):

Date	Agenda Item #	Action Taken
