Subject: Interlocal Agreement with Harris County
Project ID (If applicable): N/A

Purpose and Request:

Authorization to execute an interlocal agreement with Harris County to utilize the Harris County Engineering Department, Real Property Division consultants and/or in-house staff to perform appraisal, relocation, and other property acquisition services for the Harris County Flood Control District. Funds are available in the amount of \$300,000. (Agreement No. 2022-08, County-wide)

Background and Discussion:

The Real Property Division of the Harris County Engineering Department provides real estate services to the Flood Control District which supports the home buyout program, capital improvement/Bond program, and maintenance program. The Real Property Division assists with getting appraisals on properties, guidance on acquisition negotiations, closing on properties, guidance on condemnation cases, and other tasks associated with real property actions. Due to the high volume of home buyouts and projects, the Real Property Division has had to increase staff and consultant capacity to keep pace with Flood Control District activities.

Fiscal Impact:

The Real Property Division requests \$300,000 for the current fiscal year for the services described above. The funding is included in the District's approved Operations and Maintenance budget.

Alternatives:

If the District didn't work with the Real Property Division, the District would need to hire staff with the expertise housed within the Real Property Division and/or procure consultants to complete these tasks.

Alignment with Strategic Objective:

SO2.1 - Reducing flooding risks across Harris County by completing projects in the 2018 Harris County Flood Control District Bond Program by 2030.

SO1.1 - Continuously plan CIP projects to improve conveyance capabilities of Harris County through addition of assets to FCD infrastructure and improving existing assets within FCD's existing infrastructure.

SO1.3 - Successfully managing the District's Home Buyout Program by purchasing flood prone homes.
