Background and Discussion:

On September 14, 2021, Commissioners Court approved an Agreement between Atser and the County for Atser to provide the County with Capital Improvement Project Management and Tracking Software System (CAPTRAC) Software as a Service (Saas) For Manage-it. The County wishes to amend the Agreement to include additional scope and funds to pay for the services to ensure all data is migrated from the current platform to the new Saas platform.

Expected Impact:

The approval of this Amendment will ensure that all data is migrated from the current platform to the new Saas platform. The migration of this data preserves historical project information in a safe environment.

Alternative Options:

The alternative would be to leave the historical data in the current system. This could cause difficulty in accessing historical data in the future.
