**Background and Discussion:**

Telge Road is a 4-lane divided concrete boulevard with curb and gutter cross-section. Telge Road intersects the US 290 Frontage Road to the north and south. There is an existing dedicated southbound left turn lane, shared thru-left, and thru lane at the intersection. The posted speed limit is 40 MPH. The existing intersection experiences significant congestion during morning and evening peak hours.

**Expected Impact:**

The project will address traffic volumes and improve the overall safety of the intersection.

**Alternative Options:**

The alternative is to leave the intersection as-is and continue to cause traffic congestion to the general public.
