Request Summary (Agenda Caption):

Request by the Office of County Administration for approval of \$20,155,823 in ARPA Local Fiscal Recovery Funds for continuation and expansion of Court Backlog reduction activities together with investment in child abuse prevention, evidence preservation, and treatment efforts.

Background and Discussion: During the COVID-19 pandemic, the number of cases in the Court Backlog, defined as misdemeanors aged over 180 days or felony cases aged over 360 days, rapidly increased. To accelerate processing of cases in the backlog, Commissioners Court approved a comprehensive set of initiatives in late 2021 and early 2022 including:

- Establishment of Emergency Response Dockets
- Hiring Associate Judges to expand trial capacity
- Adding staff within the District Attorney's Office, District Courts, District Clerk's Office, Public Defender's Office, Community Supervision and Corrections Department, and County Courts

- Expanding jury services and jury facilities, including establishing additional jury operations at NRG and in the Family Law Center
- Expediting access to evidence, including funding additional evidence retrieval by the District Attorney's Office as well as body camera and 911 tape retrieval by the Sheriff's Office
- Initiating a triage program within the District Attorney's Office to review one-time, low-level offenses and quickly bring them to disposition

These efforts are beginning to yield results. The number of misdemeanor cases in the backlog is down 20% from January 2022, while the number of felony cases in backlog status has declined by 16%.

This funding request will allow approved positions to continue to be funded through FY 23, will expand evidence retrieval activities, and will extend the District Attorney's triage project for an additional year.

This request also incorporates new efforts to address child abuse by the Children's Assessment Center (CAC). Five initiatives will help improve processing time and reduce client backlog while continuing to offer treatment free of charge to thousands of children each year:

- Initiate a digital conversion project to convert 34,500 VHS tapes to a digital format and index videos
- Upgrade medical digital capture technology through the purchase of four new colposcopes and two high-quality printers
- Implement single session intake and therapy, reducing the wait time for children to receive counseling
- Enhance training for mental health professionals
- Expand community prevention training to reach 3,000-4,000 more community members each year, particularly in schools

These initiatives will help preserve evidence, decrease processing and wait times, meet increased demand, and improve the CAC's ability to testify and provide information to the Harris County District Attorney's Office and law enforcement.

This additional funding brings the total committed to Court Backlog efforts to \$36.9 million:

Total	\$ 16,745,678	\$ 20,155,823	\$ 36,901,501

Expected Impact: Continued reduction of the court backlog, reduction in case processing times, and reduced incidence of child abuse.

Alternative Options: Halt court backlog activities; allow current positive trends to reverse, increasing time to

case resolution and the jail population.
