Request Summary (Agenda Caption):

Request for approval of an agreement with Share Our Strength in order to implement the Cooking Matters Curriculum and access the Share Our Strength platform that contains additional resources for curriculum implementation.

Background and Discussion:

Share Our Strength is a 501(c)(3) non-profit organization whose mission is to end hunger and poverty in the United States and abroad. Share Our Strength runs the Cooking Matters program to end childhood hunger by helping parents and caregivers shop for and cook healthy, affordable meals.

Expected Impact:

Poor nutrition is one of the main risk factors of chronic diseases as they are directly linked with obesity. Obesity is an epidemic greatly affecting the U.S., and more specifically Harris County. This is important considering that Harris County is the most populated county in Texas. Statistics from the Texas Department

of State Health Services have shown that the prevalence of obesity is 37.4% in the Harris County region which is higher than the 35.7% overall prevalence in the state of Texas. Obesity is known to contribute to the development of other diseases such as diabetes and cardiovascular disease. The Obesity Reduction Program offer engaging and interactive nutrition classes for all ages. The team partners with schools, community centers, after-school programs, and other community settings in Harris County to promote a healthy lifestyle. Utilizing curriculums such as Cooking Matters can assist in reinforcing lesson taught to participants with practical tools to apply in everyday recipes.

Alternative Options:

Without this agreement, the Obesity Reduction program will not have access to the Cooking Matters Curriculum and additional resources in the Share Our Strength platforms.
