Request Summary (Agenda Caption):

Request by the Flood Control District for approval to accept from the Federal Emergency Management Agency grant funds in the amount of \$6,536,842, with a required match of \$2,786,198, for the Halls Bayou Blue Bell Detention Basin Program (P518-12-00-E001).

Background and Discussion:

The proposed Blue Bell Regional Stormwater Detention Basin is currently envisioned as a dry-bottom, off-line stormwater detention basin. It is located along the northern bank of the main stem of Halls Bayou, just upstream of IH-45. The funding is available specifically for this project in the FY22 Federal Budget and was submitted by Congresswoman Sheila Jackson-Lee, representing the 18th District of Texas. The \$2,786,198.36 match required will need to be funded through the Flood Resilience Trust.

Expected Impact:

This grant will fund the P518-12-00 stormwater detention basin project through construction. This project is

part of the Halls Bayou Watershed Implementation Program, which is an ongoing program that allows HCFCF to take a watershed-wide approach to planning flood risk reduction project in the Halls Bayou watershed, a historically underserved community.

Alternative Options:

This award is meant to fund the preliminary engineering report, design and construction of the P518-12-00 stormwater detention basin. Work would either not occur or would have to be funded by another means if we reject this grant award.

Alignment with Goal(s):

- ☐ Justice and Safety
- ☐ Economic Opportunity
- ☐ Housing
- ☐ Public Health
- ☐ Transportation
- ☒ Flooding
- ☐ Environment
- ☐ Governance and Customer Service
