Request Summary (Agenda Caption):

Request for approval of an interlocal agreement with the University of Houston-Clear Lake in an amount not to exceed \$25,000 to facilitate a digital storytelling workshop to help improve internal and external communication skills for department staff through the period ending July 31, 2023.

Background and Discussion:

As part of the new strategic plan recently implemented by our department, the Office of Communications, Education, and Engagement is seeking to offer staff one-of-a-kind training in partnership with the University of Houston. Staff will undergo various scenarios tailored to their job requirements and will learn new skills that will directly affect their productivity and work success.

Expected Impact:

This project will provide storytelling/communication training and data visualization training to two different cohort groups at Harris County Public Health. Employees will be able to communicate internally or externally

using this training by creating relatable, authentic, and engaging storylines over a variety of platforms. The storytelling training will instruct on how to effectively communicate and build storytelling skills. This will give them the fundamental tools to be successful in their work. This training has the added benefit of being applied throughout all levels of communication, not just in report writing and storytelling. The data visualization training will assist our data team, graphic designers, and select staff members across the agency in learning the fundamentals of data visualization and information design. This will also help us in implementing an interdepartmental workflow when working on projects containing data.
