**Request Summary (Agenda Caption):**

Request for approval to negotiate with Costello, Inc. for Professional Engineering Services in connection with Traffic Signal at Aldine Westfield Road at Rankin Road intersection, Precinct 1.

**Background and Discussion:**

Traffic signals are installed to improve the safety operation of an intersection. The subject traffic signal was installed 40+ years ago and it is recommended to rebuild to the traffic signal to current standards and specifications.

**Expected Impact:**

Rebuilding the traffic signal will bring the infrastructure to current standards and specifications and reduce overall maintenance cost. It will also significantly reduce the risk of failure during a catastrophic event.

**Alternative Options:**

To continue to maintain the existing traffic signal and slowly replace degrading parts as they fail. This may potentially be more costly and incurs a risk of failure due to aging infrastructure.
