### Request Summary (Agenda Caption):

Request for approval of commercial paper funding for Universal Services for the Fleet Vehicles (continuous) project in the additional amount of \$5,000,000 for a total CP funding of \$70,500,000.

### Background and Discussion:

Commercial Paper Series D can be used for (1) construction of public works, (2) the purchase of automobiles, equipment and machinery, including computers, materials and supplies for the operation of the County's precincts and departments (3) Professional services, including services provided by engineers, architects, attorneys, auditors, financial advisors, and fiscal agents, in connection with the contractual obligations described in (1) and (2).

Commercial Paper is being requested for the Fleet Vehicles (continuous) project and is expected to be repaid within the next three fiscal years either through bonds, budgetary means or pay-as-you-go sources. This is for approval for allocation of commercial paper for a previously approved project within the previously authorized

amount.

HB 1869 compliance confirmed by: Michael James, Special Assistant County Attorney, February 14, 2023.

**Expected Impact:**

Vehicles, as assets with a medium-term life, should generally be purchased with CIP funds, rather than cash. Using funding sources that match the asset's lifespan allows the County to make better use of its limited resources, freeing up General Fund for departments to use on non-capitalizable operational expenses. It also is a more efficient way of leveraging taxpayer dollars to provide services.

Furthermore, using debt to purchase vehicles allows the County to replace vehicles more quickly, providing safer, higher quality vehicles for County employees to perform their duties and serve constituents as well as reducing maintenance costs and vehicle maintenance downtime.

**Alternative Options:**

Harris County could continue to purchase vehicles using Fleet Fund or another paygo source. Any funding like this used on vehicles would not be available for any other uses.

Harris County could choose not to fund last year's encumbrances with commercial paper. This would lessen the amount of CIP funding needed, but it would require an outflow of nearly \$14 million in cash in the next several months.

Harris County could not carry forward budget from SFY22, but this may unfairly penalize those departments that were unable to place vehicle orders due to unusual market conditions.

Harris County could purchase fewer vehicles. This would also lessen the amount of CIP funds used to purchase vehicles, but it would mean County departments would have to keep older vehicles longer. It would also increase overall maintenance and repair costs, which are higher for older vehicles.

Harris County could purchase more vehicles. This would speed up the replacement of older vehicles, but it could lead to a less regular replacement cycle in the future and less predictability. Furthermore, new vehicle prices are at record highs and used vehicle prices are near record highs. It would be unwise to replace vehicles aggressively under such market conditions.
