Request Summary (Agenda Caption):

Request for approval to execute a consent agreement between ExxonMobil Pipeline Company LLC and Harris County to perform proposed construction in connection with Houmont Park Subdivision Drainage Improvements - 2018, UPIN 19101MF14G01, Precinct 1.

Background and Discussion:

This project is located in northeast Harris County in the Greens Bayou (P100-00-00) watershed, east of John Ralston Road and north of Beaumont Highway. The existing drainage system is comprised of three earthen, trapezoidal open channels (P110-00-00, P110-04-00 and P117-00-00) owned and maintained by Harris County Flood Control District (HCFCD). The proposed improvements include re-grading the existing roadside ditches 1,000-feet east and west of the existing drainage channels, replacing inadequate driveway and roadway culverts and channel improvements of the HCFCD Unit Numbers P117-00-00, P110-04-00, and P110-00-00. Other improvements include a detention basin to cause no adverse impacts downstream and Green River Dr. closed system drainage.

Expected Impact:

This project seeks to reduce flooding and strengthen resiliency in Harris County by assisting in the alleviation of structural flood damage to homes in the Houmont Park subdivision. Execution of this agreement will allow drainage improvements including regrading of ditches within ExxonMobil Pipeline Company LLC’s easement as designed.

Alternative Options:

If action is not taken, the pipeline company could stop work without an executed consent agreement and delay project.

Alignment with Goal(s):

- Justice and Safety
- Economic Opportunity
- Housing
- Public Health
- Transportation
- Flooding
- Environment
- Governance and Customer Service
