### **Request Summary (Agenda Caption):**

Request for approval to execute an agreement with Ally General Solutions, LLC in the amount of \$108,669.11 for Professional Engineering Services to improve a traffic signal at the intersection of Fairbanks North Houston Road at Battleoak Drive, UPIN 23101MF2S101, Precinct 1, MWDBE Contracted Goal: 20%.

### **Background and Discussion:**

Traffic signals are re-built to improve the operation of an intersection and better facilitate pedestrian activities. The existing signal uses outdated and degrading equipment and does not accommodate pedestrian crossings. Re-building this signal will ensure the intersection is brought up to compliance with current standards and provide pedestrian connectivity.

### **Expected Impact:**

Re-building the traffic signal will bring the infrastructure to current standards and specifications and reduce overall maintenance cost. It will also significantly reduce the risk of failure during a catastrophic event.

### **Alternative Options:**

To continue to maintain the existing traffic signal and slowly replace degrading parts as they fail. This may potentially be more costly and incurs a risk of failure due to aging infrastructure.
